### **Self Introduction**

My name is Wang, Tai-Tung. I graduate from Yu Da High School of Commerce and Home Economics and major in Business Management. There are five people in my family. My father works as a manager in a consultant firm. My mother is a civil official at Taipei City Government. I have an older brother and a younger sister. My brother is a junior in Tamkang University. My sister is a senior high school student. I am the middle one in my family.

I'm an outgoing person and people enjoy talking to me. I like to travel and meet new people. Overseas travelling has always been on my wish list and travelling around the world would be a dream come true. The experience of a passenger on a plane helped me understand the job of a flight attendant and this experience motivated me to develop a career in the tourism industry, especially with the airlines -it might get me a place on board a flight, without having to pay for a ticket. And that is the reason why I am applying for the Airlines and Transportation Services Management Program in your school.
